NOTICE OF VIRTUAL HEARING

TO ALL INTERESTED PARTIES:

Notice is hereby given that on 29 February 2024, Manila Electric Company (MERALCO) and Mariveles Power Generation Corporation (MPGC) filed a *Joint Application* dated 07 February 2024, seeking the Commission's approval of their Power Supply Agreement (PSA), with motion for confidential treatment of information.

The pertinent portions of the *Joint Application* are hereunder quoted, as follows:

I. THE APPLICANTS

A. MERALCO

ERC CASE NO. 2024-027 RC
NOTICE OF VIRTUAL HEARING/08 MARCH 2024
PAGE 2 OF 17

1. Applicant MERALCO is a private corporation existing under the laws of the Republic of the Philippines, with principal office located at Lopez Building, Ortigas Avenue, Brgy. Ugong, Pasig City. It may be served with notices and other processes of this Honorable Commission through its counsel at the address indicated herein.
2. MERALCO has a legislative franchise to operate and maintain a distribution system in the cities/municipalities of Metro Manila, Bulacan, Cavite and Rizal and certain cities/municipalities/barangays in Batangas, Laguna, Quezon and Pampanga, pursuant to Republic Act No. 9209, and is authorized to charge all its customers for their electric consumption at the rates approved by the Honorable Commission.

B. MPGC

3. Applicant MPGC is a corporation duly organized and existing under the laws of the Philippines, with principal place of business at Bataan Freeport Zone, Mariveles, Bataan. It may be served with notices and other processes of this Honorable Commission through its counsel at the address indicated herein.
4. MPGC owns, and will operate and maintain the Mariveles Coal-Fired Power Plant with a gross capacity of 600.100 MW (Phase 1) located in Bataan Freeport Zone in Sitio Lusong, Brgy. Biaan, Mariveles, Bataan (the "Plant").

II. STATEMENT OF FACTS AND TIMELINESS

5. In accordance with MERALCO's latest and duly accepted Distribution Development Plan and posted Power Supply Procurement Plan ("PSPP") approved by the Department of Energy ("DOE"), MERALCO foresees a baseload capacity deficit in its portfolio covering 1,800 MW based on its power situation outlook for 2024 and succeeding years.
6. Thus, in order to ensure continuous and reliable electricity for MERALCO's customers there is a need for MERALCO to source additional baseload capacity through bilateral power supply contracts.
7. Under Section 45(b) of Republic Act No. 9136 (EPIRA), it is provided that "*Distribution Utilities may enter into bilateral power supply contracts subject to review by the ERC xxx.*"
8. Accordingly, pursuant to *Section 4, Article IV of the Energy Regulatory Commission's ("ERC") Resolution No. 16, Series of 2023 ("ERC CSP Guidelines")*, MERALCO conducted a Competitive Selection Process ("CSP") for the procurement of 1,800 MW (net) baseload supply requirement. The conduct of CSP proceeded as follows:

- 8.1. On 14 September 2023 and 25 October 2023, MERALCO submitted and resubmitted to the DOE, respectively, the Invitation to Bid ("ITB")/Terms of Reference ("TOR") for the 1,800 MW CSP to request for issuance of a Certificate of Conformity in accordance with MERALCO's latest and duly accepted Distribution Development Plan and posted PSPP, pursuant to *Section 4.3 of DOE Department Circular No. DC2023-06-0021, Series of 2023 and Section 5, Appendix B of the ERC CSP Guidelines*.
- 8.2. On 27 October 2023, the DOE issued in favor of MERALCO a Certificate of Conformity No. 2023-10-002 dated October 27, 2023 (the "DOE COC") covering MERALCO's 1,800 MW CSP requirement, which MERALCO received on the same day and endorsed to its Bids and Awards Committee for Power Supply Agreements ("BAC-PSA") for commencement of the 1,800 MW CSP. On the same day, 27 October 2023, pursuant to requirements provided in the ERC CSP Guidelines, the BAC-PSA Secretariat furnished the ERC a copy of the DOE COC and formally notified the DOE (copy furnished the ERC) of the commencement of the 1,800 MW CSP in relation to the DOE COC.
- 8.3. On 1 November 2023 and 8 November 2023, the BAC-PSA caused the publication of the ITB in The Philippine Star, a newspaper of general circulation in the Philippines. The ITB contained the Terms of Reference TOR, a summary of the process and timelines of the CSP, and invitation to power generation companies to pay the Participation Fee and submit an Expression of Interest and set of documents on or before the deadline set out in said Invitation. The ITB and the TOR were likewise posted on MERALCO's website and on the DOE E-based CSP Portal.
- 8.4. On 9 November 2023, MERALCO posted on its website, an "Invitation to Participate as CSP Observers," which informed the public that the following entities or groups identified in Section 9 of the ERC CSP Guidelines are invited to signify to the BAC-PSA of their interest to participate as observer. On 14 November 2023, five (5) CSP Observers submitted their intent to (and were admitted by) the BAC-PSA as CSB Observers.
- 8.5. On 20 November 2023 and 24 November 2023, Pre-Bid Conferences were held to allow interested bidders an opportunity to clarify any provisions, requirements, and/or terms and conditions of the bidding documents and/or any other matter that the interested bidders may raise. The Pre-Bid Conferences were held at least thirty (30) calendar days before the 1,800 MW CSP's bid submission deadline; were attended by CSP Observers; and were broadcasted livestream in MERALCO's YouTube website.

- 8.6. On 5 January 2024, the bidders submitted their bid document submissions in compliance with all the bidding documents for the 1,800 MW CSP and the respective submissions of the bidders were opened by the BAC-PSA. The bid submission and bid opening were held at least forty-five (45) days after the ITB/TOR's last publication and were attended by CSP Observers and were broadcasted livestream in MERALCO's YouTube website.
- 8.7. Following the BAC-PSA's evaluation of each of the bidders' bid submissions, Applicant MPGC emerged as one of the bidders with the lowest calculated responsive bid ("Best Bid"), with MPGC offering 300 MW out of the required contract capacity of 1,800 MW for the said bidding.
- 8.8. On 8 January 2024, the BAC-PSA conducted the post-qualification of the document submissions of the bidders with the Best Bids and found the submissions to be compliant with and are responsive to all the requirements and conditions specified in the bidding documents, as amended, or clarified by pertinent bid bulletins, for the 1,800 MW CSP. The post-qualification was attended by CSP Observers and was broadcasted livestream in MERALCO's YouTube website.
- 8.9. On 22 January 2024, the BAC-PSA submitted its recommendation and report to MERALCO's Board of Directors recommending MPGC, as one of the bidders with the best bids in the 1,800 MW CSP, to be declared as the Winning Power Supplier and be awarded a power supply agreement for its offer of PhP 6.9971/kWh (total delivered levelized cost of electricity ["LCOE"], VAT inclusive) for 300 MW.
- 8.10. On 29 January 2024, MERALCO's Board of Directors approved the BAC-PSA's recommendation and the following day, 30 January 2024, a Notice of Award was issued by the BAC-PSA in favor of MPGC.
- 8.11. On 05 February 2024, the Power Supply Agreement between MERALCO and MPGC was dated, signed and executed ("MERALCO-MPGC PSA"). Thereafter, after a performance bond was submitted by MPGC on 6 February 2024 and a Notice to Proceed was issued in its favor on 7 February 2024.

A copy of the BAC-PSA Summary-Report and the DOE COC regarding the conduct of the 1,800 MW CSP are attached hereto as ANNEXES "C" and "C-1".

9. The said Joint Application together with its Annexes was pre-filed with the Honorable Commission on 8 February 2024,

this Joint Application is timely filed within the reglementary period provided under the ERC CSP Guidelines.

The Dispatch of Contract Capacity and Associated Energy shall meet the requirements set out in the Performance Guarantees.

6.1.2 Unless otherwise expressly permitted by this Agreement, Power Supplier shall not, without Meralco's prior written consent:

- (a) sell, divert, grant, transfer, dedicate, reserve or assign all or any portion of the Contract Capacity and Associated Energy to any Person other than Meralco; or
- (b) provide Meralco with capacity and/or electrical energy from any source other than the Plant; *provided, however*, that Power Supplier shall be allowed to deliver and sell to Meralco the capacity and/or electrical energy from WESM or any other source only when the Plant is on Outage beyond Full Load Equivalent Scheduled Outage Allowance Days and/or Full Load Equivalent Forced Outage Allowance Days, to be paid for by Meralco at the lower between the actual cost of Replacement Power and Price, in accordance with Appendix E. Should Power Supplier fail to source from the Plant when it is available, Meralco shall pay the lower between WESM price and Price in accordance with Appendix E.

xxx

Article 9 Outages

9.1. Outage Allowances and Replacement Power

9.1.1 After Commercial Operations Date, Power Supplier shall be allowed Scheduled Outages not exceeding 0 Full Load Equivalent Outage Days ("Full Load Equivalent Schedule Outage Allowance Days") and Forced Outages not exceeding 0 Full Load Equivalent Outage Days ("Full Load Equivalent Forced Outage Allowance Days") each Contract Year; *provided that*, a Forced Outage may only be counted towards the Full Load Equivalent Forced Outage Allowance Days upon provision by Power Supplier to Meralco of a copy of the acknowledgment letter from the System Operator or report from the Market Operator that a Forced Outage has occurred.

9.1.2 During Scheduled Outages within the Full Load Equivalent Scheduled Outage Allowance Days and Forced Outages within the Full Load Equivalent Forced Outage Allowance Days, Meralco shall procure replacement energy from other sources or the WESM, at its own expense, which expense shall be passed on to its customers as part of generation costs.

9.1.3 During Scheduled Outages that exceed the Full Load Equivalent Scheduled Outage Allowance Days and Forced Outages that exceed the Full Load Equivalent Forced Outage Allowance Days, Power Supplier shall purchase Replacement Power, which shall be declared as BCQ and paid for by Meralco at the lower between (a) the actual price of the Replacement Power, and (b) Price as specified in Appendix E. In the event of failure by Power Supplier to source the Replacement Power, Meralco shall be allowed to source replacement energy from the WESM. If the WESM price for the replacement energy is

higher than the Price, Power Supplier shall reimburse Meralco the difference between (i) WESM price and (ii) the Price as specified in Appendix E, plus all relevant transaction cost and taxes. If the WESM price for the replacement energy is lower than the Price, Meralco shall not be liable to Power Supplier for the difference between WESM price and Price.

- 9.1.4 On and after the Commercial Operations Date, during any period in which an Event of Force Majeure affects Power Supplier or Meralco, Meralco shall procure replacement energy from the WESM to the extent supply or offtake is so affected. For clarity, the cost of replacement energy shall form part of the price that Meralco will charge its customers.
- 9.1.5 The supply by Power Supplier of quantities of Replacement Power under this Section 9.1 shall be deemed fulfilment of Power Supplier's obligation to make available the Contract Capacity and to deliver the Associated Energy during such period.

xxx

Article 10 Adjustments in Contract Capacity and Associated Energy

- 10.1 Subject to the provisions of Section 10.2 below, Meralco shall, from time to time, be entitled to a reduction in the Contract Capacity and Associated Energy (the "Reduction in Contract Capacity and Associated Energy") equivalent to the reduction in the demand of its captive customers in order to avoid stranded contract capacities or costs, or by reason of the enforcement of Retail Competition and Open Access (RCOA), the Renewable Energy Law, Renewable Portfolio Standards (RPS), Green Energy Option Program (GEOP), Net Metering program, and other similar government programs, Laws and Legal Requirements.
- 10.2 Meralco shall give a written notice at least five (5) Days prior to the first Day of the next Billing Period to Power Supplier, specifying the Reduction in Contract Capacity and Associated Energy pursuant to Section 10.1, indicating when such reductions shall take place. Upon receipt by Power Supplier of such written notice, Meralco shall cease to have any rights and obligations under this Agreement in respect of such Reduction in Contract Capacity and Associated Energy. Any such reduction shall be limited to the extent of the Contract Capacity and Associated Energy that will allow Meralco to comply with its obligation to supply electricity in the least cost manner to its customers as of the date indicated in the notice when such Reduction in Contract Capacity and Associated Energy shall commence. Except for such Reduction in Contract Capacity and Associated Energy and the resulting reduction in Capacity Payment, all other terms and conditions of this Agreement, as approved by the ERC, shall remain in full force and effect. For this purpose, Parties shall execute an operations protocol and provide a copy thereof to the ERC.

xxx

- 14.3 ERC Approval

PAGE 9 OF 17

14.3.1 Subject to the non-occurrence of the Longstop Date, upon receipt of the ERC Final Approval, Meralco shall provide a copy of such ERC Final Approval to Power Supplier. Power Supplier shall have ten (10) Days from its receipt from ERC or from MERALCO of such ERC Final Approval, whichever is earlier, to notify Meralco in writing that (a) it accepts such ERC Final Approval or (b) it does not accept the ERC Final Approval, stating the grounds for non-acceptance; *provided* that, if the ERC Final Approval does not contain any adjustment or modification, the ERC Final Approval shall be (i) deemed accepted by Power Supplier and (ii) implemented by the Parties immediately.

IV. GENERATION RATE IMPACT

11. Based on the foregoing, and given a certain set of assumptions, the annual effective rate under the MERALCO-MPGC PSA is PhP 5.8343 per kWh (at plant gate, VAT exclusive), as shown in the RATE IMPACT ANALYSIS below:

Mariveles Power Generation Corporation (MPGC) PSA - Rate Impact at 100% pcf						
(YEAR 2025)

Increase / (Decrease) in Generation Cost	(Php/kWh)					(0.0546)

NOTES:

(a) Base Rates as set forth in Schedule 1 of Appendix E of the PSA.

^(b) CPI assumptions were based on values used during evaluation for Year 2025.

^(c) **Energy Payments based on 100.00% plant capacity factor.**

^[d] Dollar components shall be paid in USD, however values shown here were converted to Peso amount using exchange rate of PhP 56.085 / USD.

^(e) Fuel Payment calculated based on Guaranteed Net Plant Heat Rate at 100.00% load factor for Contract Year 1.

⁽⁴⁾ Line Rental rate for MPGC is based on the maximum allowable value for Contract Year 1 as stated in the PSA.

^(e) Cost if equivalent volume of MPGC was sourced from the WESM based on forecasted average hourly prices from May 2025 to April 2026.

^(N) Forecasted Meralco Captive Energy for May 2025 to April 2026 based on 2023 Power Supply Procurement Plan as submitted to DOE.

12. MERALCO notes that the annual delivered rate of PhP 6.0843 per kWh (line rental inclusive and VAT exclusive) is lower by about PhP 0.8027 per kWh than the effective cost of PhP 6.8870 per kWh, if the equivalent capacity under the MERALCO-MPGC PSA is to be sourced from the Wholesale Electricity Spot Market (“WESM”). In fact, by sourcing the capacity through the MERALCO-MPGC PSA, MERALCO’s average blended generation rate will be reduced by about PhP 0.0546 per kWh (as seen in the RATE IMPACT ANALYSIS above) resulting in savings to consumers of about PhP 2.1 Billion.
13. In support of this Joint Application, the Judicial Affidavit of ENGR. ELVIN C. JACOB, Officer of MERALCO’s Energy Sourcing – Energy Sourcing Operations Team, is attached as ANNEX “E” and made an integral part hereof.

**Subject of a Motion for Confidential Treatment of Information*

VI. ALLEGATIONS IN SUPPORT OF THE MOTION FOR CONFIDENTIAL TREATMENT OF INFORMATION

15. Under Rule 4 of this Honorable Commission's Revised Rules of Practice and Procedure ("RRPP"), a party to any proceeding before the Honorable Commission may request that certain information not be disclosed and be treated as confidential, by describing with particularity the information to be treated as confidential, specifying the ground for the claim of confidential treatment of the information and, if applicable, specifying the period during which the information must not be disclosed.
16. With respect to the following documents marked as ANNEXES "O" to "O-1", "Y", "Z", "AA", "BB" and Series, and "CC" MPGC respectfully moves that these be treated as confidential and not be disclosed to any party for the reason that these contain non-public, proprietary information, data and calculations involving the investments, financial calculations, and business operations of MPGC. The data and information contained therein are part of the overall formula and process in arriving at the competitive rates of MPGC. These formula and process are specifically developed for the use of MPGC and are treated as trade secrets. If the information contained in these documents are unduly disclosed, it will seriously prejudice the competitiveness of MPGC. These documents are neither generally available to the public nor already in the possession of the Honorable Commission on a non-confidential basis.
17. In the case of *Air Philippines Corporation vs. Pennswell Inc.*,¹ the Supreme Court defined "trade secret" as follows:

¹ G. R. No. 172835, 13 December 2007.

"A trade secret is defined as a plan or process, tool, mechanism or compound known only to its owner and those of his employees to whom it is necessary to confide it. The definition also extends to a secret formula or process not patented, but known only to certain individuals using it in compounding some article of trade having commercial value. A trade secret may consist of any formula, pattern, device, or compilation of information that (1) is used in one's business; and (2) gives the employer an opportunity to obtain advantage over competitors who do not possess the information. Generally, a trade secret is a process or device intended for continuous operation of the business, for example, a machine or formula, but can be a price list or catalogue or specialized customer list. It is indubitable that trade secrets constitute proprietary rights." (Emphasis supplied.)

18. The protection of trade secrets is likewise recognized by the Honorable Commission in its Decision in ERC Case No. 2015-111 RC:

"In the case of PNOC RC, the documents sought to be protected from disclosure contains formula and pricing structures used in arriving at their proposed tariff. The prices cited in the documents were components of the proposed tariff. In fact, all three (3) documents were used by the Commission in evaluating the reasonableness of the proposed rate. In electric power industry [where] prices is a major consideration in selecting one's supplier, it is apparent that the assumption used in arriving at one's proposed tariff is considered a competitive leverage by one player against its competitors.

*Thus, the Commission resolved to treat the said documents confidential and may not be publicly disclosed."*²

19. MPGC hereby submits one (1) copy of the foregoing confidential documents in a sealed envelope, with the envelope and each page of the documents marked "Confidential."
20. The interest of the consumers of MERALCO is sufficiently protected by the review and evaluation of the rates under the PSA by the Honorable Commission, without the need to disclose the contents of ANNEXES "O" to "O-1", "Y", "Z", "AA", "BB" and Series, and "CC". The reasonableness and transparency of the prices of electricity is to be assured by the Honorable Commission through its own review and verification of the foregoing documents sought to be afforded confidential treatment in the evaluation and handling thereof.

² *In the Matter of the Application for the Approval of the Power Supply Agreement Between Nueva Ecija II Electric Cooperative, Inc. – Area 2 (NEECO II – Area 2) and PNOC Renewables Corporation (PNOC RC) with Prayer for Provisional Authority, ERC Case No. 2015-111 RC, Decision dated 30 May 2017, p. 26.*

21. Lastly and corollary to the foregoing, MPGC would like to implore the discerning wisdom of the Honorable Commission to include in its issuance for this purpose the *"procedures for handling or returning the confidential information, as may be appropriate, upon the close of the proceedings."* (Sec. 2, Rule 4, RRPP)
22. This is guided by the fact that MPGC will seek for the return of these sought to be declared confidential annexes after its utilization as evidence in this case and/or at the close of the proceedings hereof, so as to relieve the Honorable Commission of the burden of safekeeping the trade secrets of MPGC enclosed in the subject annexes.

PRAYER

WHEREFORE, premises considered, Applicants respectfully pray that the Honorable Commission:
