Explain how the board of directors plans for the succession of the CEO/Managing Director/President and the top key management positions?

The Company's Board and the Board Remuneration and Leadership Development Committee are responsible for overall guidance and direction on succession planning and leadership development of the President/CEO and Senior Management. The Chairman of the Board and of the Remuneration and Leadership Committee, the President and CEO, working closely with the Head of Human Resources, drives the strategy for succession planning, leadership development and talent management. The Head of Human Resources develops and implements the processes and the tools to ensure robust pools of succession candidates for the President/CEO, Senior Management, Middle Management and First Line Management.

A key feature of the Company's succession planning process are the talent reviews that are conducted at Senior Management and at various levels in the organization. Currently, this has resulted in a pool of 30 internal candidates, in addition to external candidates who, may be identified, and subject to the realization of their development plans, could become management committee level within the next 5 years.

The talent reviews have been a hallmark of our process and is a best in class talent management practice. The process deliverables are individual development plans designed to bring the key talent to their next level of growth and performance and/or realize their career aspirations. It involves authentic and extensive management discussions and deliberations by leaders of these key talents on their aspirations, strengths, development needs and challenges.

All of these have created a development mindset throughout the organization and have established a strong and robust leadership pipeline that will adequately meet the Company's senior leadership requirements well into the future.

Does the company have a policy of ensuring diversity of experience and background of directors in the board? Please explain.

Does it ensure that at least one non-executive director has experience in the sector or industry the company belongs to? Please explain.

1. Ambassador Manuel M. Lopez was the Chairman, President and CEO of the Company in different periods from 2001 to 2010.

			Management Committee.
Accountabilities	The executive director is accountable to the shareholders of the Company as they are involved in the day-to-day activities of the Company and are responsible for execution of business strategies and plans.	The Board shall ensure that stockholders are provided with a balanced and comprehensible assessment of the Company's performance, position and prospects on a quarterly basis, including interim and other reports that could adversely affect its business, as well as reports to regulators that are required by law.	Independent directors likewise share the same accountability to the shareholders. They are expected to maintain their independence from Management and exercise independent judgment in carrying out their responsibilities as director of the Company. As Independent Directors, as much as possible, they should be in attendance during board meetings to promote transparency.
Deliverables	The Executive Director presents a monthly update on the progress of Management in achieving set goals and targets, report major opportunities and potential risks and provide any information the Board requires concerning the business operations of the Company.	The Non-Executive directors support the Board by attending and participating in all Board and committee meetings in order to fulfill their accountabilities. They will give independent perspective in their oversight function and engagement of Management. They will help ensure that Management formulates and implements sound strategic policies and guidelines on major capital expenditures, business strategies, plans and policies and periodically evaluate Management's overall performance. Ensure that appropriate policies and procedures are adopted in accordance with this Revised Manual and applicable laws and regulations, including conflict of interest and related party transactions, among others.	The Independent directors, being chairmen of the Nomination and Governance Committee and the Audit and Risk Management Committee, lead the programs and policy formulation in these respective committees.

Provide the company's definition of "independence" and describe the company's compliance to the definition.

Independence is defined as having no business or other relationship with the Company that could reasonably be perceived to materially interfere with the exercise of independent director's judgment in carrying out his responsibilities as a director. Our independent directors, namely, Ret. Chief Justice Artemio V. Panganiban and Mr. Pedro E. Roxas have no business or other relationship with the Company which may interfere with the exercise of their judgment in carrying out their responsibilities as independent directors.

Does the company have a term limit of five consecutive years for independent directors? If after two years, the company wishes to bring back an independent director who had served for five years, does it limit the term for no more than four additional years? Please explain.

The Company's By-Laws states that the Board of Directors shall serve within the limits at the time provided by law, as may from time to time be determined or elected by stockholders of the corporation entitled to do so, at a regular or special meeting of such stockholders, at which a quorum shall be present. H. ROLE OF STAKEHOLDERS

1) Disclose the company's policy and activities relative to the following:

	Policy	Activities
Customers' welfare	<p>Our true measure of success is in serving the customer better.</p> <p>The Customers are its reason for being, and therefore, they should always be treated with dignity. The Company must be fully responsive to their needs. The Company has the responsibility to:</p> <ul style="list-style-type: none"> • Provide the customers with the highest quality products and services, consistent with their requirements and with international standards; • Treat the customers fairly, courteously and with integrity in all of its business transactions; • Act promptly on their immediate concerns and be receptive to their long-term needs and interests; and • Make every effort to ensure that the health, safety and general well-being of its customers are enhanced by its products and services. 	<p>We have gone to great lengths in addressing how we can help contain the generation charge, the largest component in the average customer bill at 58% average for 2012 and the related system loss charge, which accounted for 5% of the bill in 2012. Even as MGen is still developing its first highly fuel efficient and highly reliable power plants, the Company has increased its power supply envelope of new very competitively priced Power Supply Agreements (PSAs) to 2,880 MW. These PSAs came into effect in late December 2012, replacing the supply from the relatively higher priced Transition Supply Contract (TSC) with the National Power Corporation sourced from successor generating companies (SGCs) and independent power producer administrators (IPPAs). These also contributed to effectively lower the system loss charge component, in addition to the reduced 12-month moving average system loss of 7.04% by the end of 2012, down from 7.35% in 2011.</p> <p>Our Peak-Off Peak service offer, energy efficiency advisories such as Bright Ideas and Tipid Tips for residential customers and energy audit service for commercial and industrial customers, are among the measures we have been making available to help customers in all segments reduced their own electricity spend.</p> <p>For better understanding and appreciation of power prices in the Philippines, particularly our franchise areas, relative to other market in the region and elsewhere, Meralco commissioned in 2012 the International Energy Consultants (IEC) to undertake an independent comparative study of electricity pricing. The results of the IEC study have been shared with the Senate and House of Representatives Congressional Power Commission (JCPC), Department of Energy (DOE), the Energy Regulatory Commission (ERC) and various business and interest groups. Among others, the IEC study</p>

		indicates that power prices here are lower than in Japan and Singapore, and are higher than in neighboring markets, but largely due to de facto subsidies existing in these markets. All of these factors have enabled Meralco to maintain Customer Satisfaction Index (CSI) at 7.60%, near its alltime high of 7.65% in 2011.
Supplier/contractor selection practice	The Company's suppliers are required to undergo an accreditation process. Part of the requirements for accreditation is the supplier's written commitment the Company's Suppliers Business Conduct (SBC) policy. Corporate Audits conducts a regular random audit to determine compliance with the bidding process.

Only questions relevant to the particular item in the agenda being discussed shall be allowed. Hence, questions not relevant to the agenda shall be considered "out-of-order"; 2. Questions about the Company and its operations will be entertained after report of the President and Chief Executive Officer; 4. To give equal chance to everyone, a stockholder can ask one (1) main question and, if needed, a follow-up question; and 5. If due to time constraints there are questions which could not be entertained on the floor, the Company officers will be available for consultation after the meeting. 6. Date of sending out notices: April 20, 2012

State, if any, questions and answers during the Annual/Special Stockholders' Meeting.

Mr. Ed Dulalia took the floor and congratulated the members of the Board and Management for the Company's healthy revenue of more than P13 billion in 2011, which is a mark of good management and performance.

A certain Mr. Emil suggested including the subsidiaries' financial statements in the Company's annual report for appreciation of their income statement. Mr. Pangilinan stated the performances of the subsidiaries were disclosed in the Information Statement filed with the Securities and Exchange Commission. In the next annual report, the Company will be more disclosure-oriented with respect to the performance of the subsidiaries. Broadly speaking, the performances of the subsidiaries have been good where 2011 performance was better vis-à-vis 2010.

Mr. Gil Gundayao asked Chairman Lopez if he is within the coverage of Republic Act 6713 on ethical standards specifically on divestment, given that he is a non-career officer of the Philippines serving as Ambassador to Japan. Chairman Lopez replied that he is not required to divest his shareholdings as he is not an executive of any of the corporate entities he is still involved with.

Mr. Guillermo Gili congratulated the Management and staff for having registered a healthy and strong balance sheet for the year ended December 31, 2011. He related that a certain customer of Meralco, with a monthly billing of about P25,000, received a bill of P65,000. When he complained about the bill, the

customer was told to pay only P18,000. He asked how this came about. Mr. Reyes thanked Mr. Gili for the point he raised. However, absent the specifics about the customer account and circumstances, it would be difficult to respond. Mr. Reyes said that there are personnel who will address his concern right after the meeting, as Meralco would like to address all customer-related issues promptly. Mr. Gili asked Mr. Pangilinan whether the reason for the declaration of property dividend of Rockwell Land Corporation was because Metro Pacific Investment Corporation (MPIC) is still hounded by its sale of Fort Bonifacio. Mr. Pangilinan replied that MPIC has gotten out of the real estate business a number of years ago. With respect to the entitlement of property dividends arising from the share distribution of Rockwell Land Corporation, Management felt that it is a non-strategic asset for the Company. Thus, the interest in Rockwell Land Corporation was sold to the Lopez Group.

Mr. Emil related that his neighbor's electricity supply was disconnected due to non-payment of bill. The bill was paid at the Business Center the following day with a promise to the customer that reconnection of electric service will be made within the day. Unfortunately, electricity was reconnected only after three days. He said that the Company should improve its customer service and reconnect electric service immediately. Management took note of the concern raised.

FOREWORD

Sound business ethics plays an integral part in fostering the success of a company. To ensure that the ethical values are preserved and promoted to all directors, officers and employees, our Company's Board of Directors approved the adoption of this Code of Ethics (the "Code"). This Code serves as the embodiment of our Company's unwavering dedication to uphold the fundamental corporate principles of fairness, accountability, integrity and transparency. It serves as a guide to our Company, its directors, officers and employees on how to conduct themselves in their decisions, transactions and interactions in alignment with these corporate principles when performing their respective duties and responsibilities.

The principles contained in this Code are not new or unfamiliar. In fact, they have been part of the life, tradition, heritage and culture of our Company during its more than 100 years of existence. They flow in the blood of every employee – "bahagi ng ating buhay ... sa araw at gabi, baha man o bagyo". The spirit of it all remains the same as ever - - *service excellence with integrity beyond business!* Hence, this Code serves as a renewal of our commitment to these principles as our Company moves forward and faces new challenges.

This Code is not intended to address all present or future ethical situations. Similarly, other matters or concerns which are not directly covered by this Code may have already been addressed in other existing company policies, standards, guidelines, procedures and codes.

Ultimately, everyone is enjoined to exercise sound judgment and to adhere to the letter and spirit behind this Code in their relationships among themselves, with our Company's customers, suppliers, business partners, competitors, government, regulators, creditors, stockholders and the general public.

We therefore commit to live and abide by the following ethical standards of behavior in our various business dealings:

Subject: Policy on Solicitation and Acceptance of Gifts		Sensitivity Classification: Company Use	

I. Background

Pursuant to MERALCO's adherence to the corporate governance principles of fairness, accountability, integrity, and transparency, this policy is issued to define the Company's standing policy on Gifts, as aligned with MERALCO's Revised Manual of Corporate Governance and Revised Code of Ethics.

MERALCO's Revised Code of Ethics restricts the solicitation or acceptance of gifts in any form from a third person or entity, directly or indirectly in consideration of any act, omission, or transaction of our Company favorable to such third person or entity with existing or intended business dealings with our Company.

II. Rationale

Gift-giving is part of the Filipino culture of doing business to enhance good business relationships. However, Directors, Officers, and Employees must be aware that other parties may use this custom of gift-giving as means to gain favors or influence the objectivity of said Directors, Officers, and Employees. Thus, there is a need to properly regulate the receiving of gifts consistent with the abovementioned policies without prejudice to maintaining efficient, friendly, and cordial relations with Third Party entities. This serves as a guide for handling gifts offered and given by third parties.

III. General Statement of the Policy

Directors, Officers, and Employees shall refrain from putting themselves in situations or acting in a manner that could significantly affect the fair, objective, independent, and/or effective performance of their duties and responsibilities in the Company while transacting with third parties. As such, we do not solicit and accept gifts from Third Party entities.

In cases when solicitation and acceptance of gifts cannot be avoided, handling of such cases should conform to the rules and procedures prescribed in this document, which is also in accordance with the corporate governance principles of fairness, accountability, integrity, and transparency.

MESSAGE

Dear Fellow Employees,

This is the first time after 36 years that a revision was undertaken to shift the paradigm of discipline to a positive mechanism applicable to today's work and regulatory environment. The original Code was issued on January 13, 1973 and was reissued on January 1, 1976. I have the privilege of presenting to you the updated version of our Company Code on Employee Discipline, which we will now call our Code on Right Employee Conduct (COREC).

Our Company considers correct and proper employee conduct as the basic thrust in achieving our corporate objectives and as a means in the furtherance of good corporate governance and personal development. It likewise encourages adherence to our corporate values, namely:

- 1. Customer Service*
- 2. Performance*
- 3. Accountability and Empowerment*
- 4. Integrity and Transparency*
- 5. Teamwork and Collegiality*
- 6. Malasakit*
- 7. Makabayan*

Innovation and safety, although unwritten, remains as core values that should be inherent in our culture.

Know this book by heart and let it be our guide to proper employee behavior as we continue to move forward for the success of our Company.

While we have endeavored to make this Code comprehensive, it cannot cover every situation related to employee conduct. In some cases, we must use our judgment in the appropriateness of its application. You may also consult your Supervisor/Office Manager or the responsible HR office if there are uncertainties.

Our Company is a public utility responsible for vital public interests; therefore, we must observe honesty and good faith in the performance of our duties and in our dealings with the stakeholders of the Company.

This Code basically contains the corrective aspect of an employee’s conduct, which is derived from our Corporate Governance Manual and Code of Ethics. It also subsumes and, is in effect, correlated with the Safety Code and the Information Security Code.

The Code on Right Employee Conduct further stresses that our company safeguards confidential information and we are under serious obligation at all times to maintain its sanctity.

In the course of our employment, conflict situations and/or associations should be avoided because the same might impair our ability to perform work in the Company’s best interest.

Lastly, but equally important, it shall be the responsibility of Office Managers and Supervisors to disseminate Company policies, procedures, rules and regulations to employees under their supervision.
