Highlighting principles of governance

Dubbed as "Corporate Governance: Our Principles @ Work", Corporate Governance Office launched a month-long series of corporate [desktop wallpaper and posters](#), which are highly visible and informative for the directors, officers, employees and stakeholders of the Company. This is aimed at establishing a culture of corporate governance (CG) in Meralco. This information campaign commenced on January 3, 2013.

The theme of these wallpaper and posters are the core principles of CG with the acronym FAIT or Fairness, Accountability, Integrity and Transparency. They illustrate and define each of these principles for better understanding and application of the Company's directors, officers and employees.

This CG initiative portrays Meralco's commitment to its vision of progressing as a Company from CG awareness level to compliance, competence and ultimately to a culture of corporate governance.
